

Search:

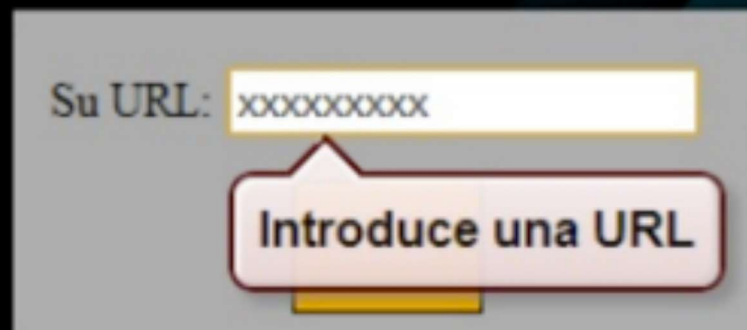

`<input type="search">`

A screenshot of a search input field. The field is rectangular with a light blue border and a white background. Inside the field, the word 'palabra' is written in a dark blue font. To the right of the text, there is a small blue 'x' icon, which serves as a clear button. The field is set against a dark background with a pattern of overlapping blue circles.

- Botón “x” para “limpiar”
- No permite saltos de línea
- Degrada en “text”

URL:

```
<input type="url">
```

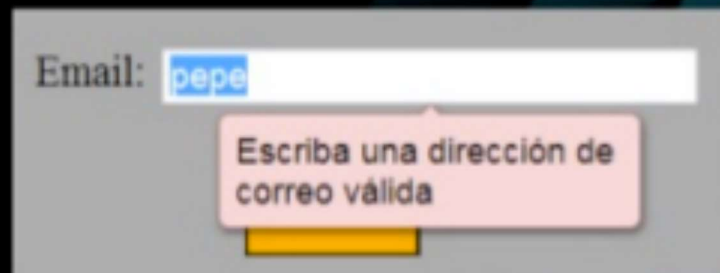

Su URL:

Introduce una URL

Valida que sea una URL **absoluta**

Email:

`<input type="email">`

A screenshot of a web form element. It features a text input field with the label "Email:" to its left. The input field contains the text "pepe". Below the input field, there is a pink rectangular error message box with the text "Escriba una dirección de correo válida". A small yellow rectangular button is located directly beneath the error message box.

Verifica que la casilla sea válida.

Puede llevar el atributo **multiple** y en ese caso acepta varias casillas separadas por comas.

Number:

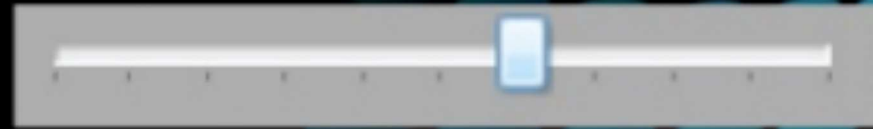

Ingrese un número: 50

```
<input type="number"  
  min="0" max="100"  
  step="10" value="50">
```

Formato: -12345.678e+90

(puede ser negativo, usa punto para decimales,
e para exponente, más
signo y potencia)

Range:

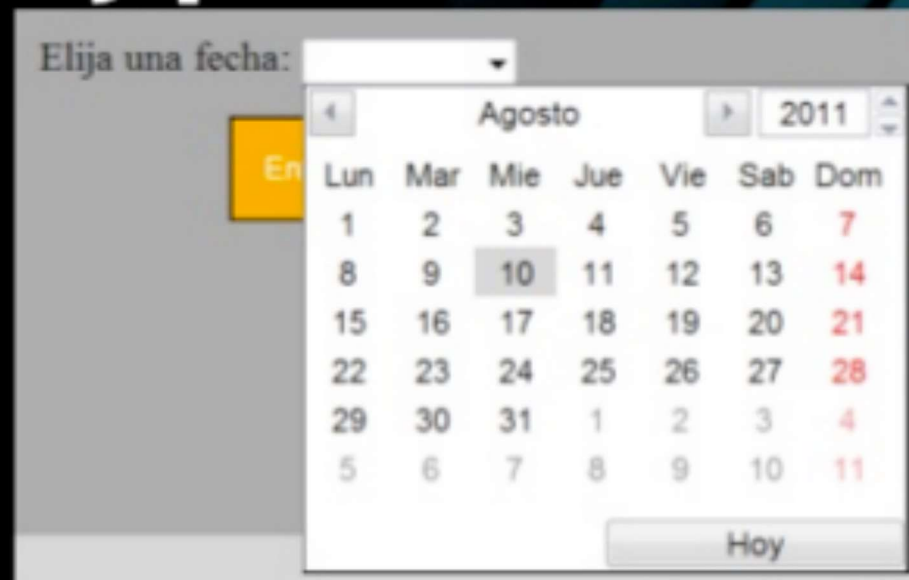

```
<input type="range"  
min="0" max="100" step="10"  
value="50">
```

Usar si no importa la precisión del número,
sino la usabilidad.

Date:

`<input type="date">`

Puede llevar **min**, **max** (rango permitido) y **step** (por default, de a 1 día)

Datetime:

`<input type="datetime">`
